

Education Guardianship UK Ltd Emergency Procedure

Statement

The safety of our students is our main priority. Education Guardianship UK Ltd acknowledges that there may be situations out of their control that require planning for. This plan outlines what Education Guardianship UK Ltd will do in the event of an emergency. (Please note that the scenarios are not exhaustive.)

Emergency Procedure

Dealing with an emergency

It is important that staff who receive an emergency call keep calm and remember to note all of the information provided. You may need to provide reassurance and support to the informant as they may be upset, suffering from shock or may panic.

- Ascertain out what has happened, gathering as much information as you can;
- Discuss with the informant what action needs to be taken and by whom;
- Keep a written record of the information and of any actions taken. (A template for recording incidents is included at end of this plan);
- Hayley Babot, Company Director and DSL should be informed immediately about the situation.

Specific scenarios

Please note that specific scenarios may require a bespoke plan that will include further details on how we will handle the issue. Where this is the case Education Guardianship UK Ltd will circulate the plan with all relevant parties.

Cancelled Flights

When a student's flight is cancelled in the UK Education Guardianship UK Ltd will arrange for suitable care. If necessary students will be accommodated in an emergency homestay until it is possible to travel. Where a student is waiting at an airport without a member of our staff, students are required to contact Education Guardianship UK Ltd as soon as they are aware that their flights have been cancelled. Parents will be kept fully informed of the situation. Education Guardianship UK Ltd will liaise with the airline and parents to re-arrange the flights.

Pandemic/ Contagious Outbreak

Pandemics can cause major disruption to travel and schooling. It is important in such events to take advice from the government, Public Health England and the World Health Organisation. AEGIS provides guidance for members to follow. This is regularly updated as a situation develops. Usually, in a pandemic it is important to restrict movement so as not to spread the disease further. That means boarding school students would usually remain at school. In the event of a pandemic Education Guardianship UK Ltd may not be able to offer homestay accommodation as this could place students, homestay families and the wider community at risk. Education Guardianship UK Ltd will work with parents to find flights to home countries where required. Education Guardianship UK Ltd will work with schools to meet students' needs during a pandemic. This could be by helping to support students to learn remotely as directed by the school. Education Guardianship UK Ltd will work with parents and schools to find suitable quarantine accommodation for students where required.

Serious injury or death of a student

Serious injury or death of a student is distressing for all concerned. Education Guardianship UK Ltd will:

- Liaise with medical staff and police
- Keep parents informed
- Help parents arrange flights
- Handle any media enquiries
- Liaise with schools and any other external agencies (such as LSP) where required
- If required, assist parents with rehabilitation and flights home
- If required, assist parents with funeral arrangements

Terrorist incident

Schools will have their own lockdown procedures to ensure the safety of students in the event of a terror attack. In the event of a terror attack taking place in the UK when a student is staying at a homestay, Education Guardianship UK Ltd will follow the guidance provided by the UK government and the police. Unless instructed otherwise, students will be asked to remain in the homestay and not to go out unaccompanied by their homestay. In such a situation Education Guardianship UK Ltd will assess the risks and act accordingly.

Fire

In the event of a fire at a homestay, after dealing with the emergency by calling the fire brigade, the homestay is expected to inform Education Guardianship UK Ltd. Students will be moved to a different homestay until the accommodation is refurbished. Education Guardianship UK Ltd will visit the homestay to check the suitability of accommodation before any students return.

School closures

There are many reasons why a school may close. These could be temporary, such as due to weather or a staff shortage or permanent, for example due to bankruptcy. Unless closure is due to a contagious disease (see pandemic guidance above), Education Guardianship UK Ltd will provide accommodation for students with their homestays*.

Requests from schools to remove a student

Education Guardianship UK Ltd has a plan in place for any student who cannot be accommodated by the school due to illness, disciplinary action or any other cause.

- Education Guardianship UK will liaise with the student, parents and school.
- Emergency homestay accommodation* will be arranged for the student unless the student has a contagious disease (see pandemic guidance above).
- Education Guardianship will liaise with the school to arrange the safe return of the student as soon as possible.

Emergency Homestay Accommodation*

Please note that emergency homestay placements may not necessarily be with the students' usual homestay, but will be with one of our vetted homestays who provide high levels of care. These homestays may be a greater distance from the school. Wherever possible we will place students with their usual homestay.
